

## Rame attivato

EC FERTILIZER

Copper sulphate solution

**Composition:** Copper (Cu) *water soluble* 5%

**Components:** copper sulphate, organic acids

pH = 4  
Density = 1,13

Size Kg 1 in box containing 15 pieces  
Kgs 5 in box containing 4 pieces  
Kgs 30 on pallet containing 30 pieces

### CHARACTERISTIC:

Copper assume a great importance in the plants. It is part of photosynthetic processes how catalyzer of redox reaction. Treatments with copper are necessary in case of copper lack. Copper lack show itself with leaf decoloration and curling of the edges of the leaves.

The product is stable to standard temperature and pressure. To store to temperature between 4°C and 35°C. The product isn't combustible.

### Period, dose and instruction for use

#### Fertirrigation:

**Vegetables and flowering crops:**to distribute 0.3-0.5 Kg per 1.000 sm of soil.

**Arboreous crops:**to distribute 10-20 g per plant 3-4 times during vegetative cycle.

**Vine and peach:** to distribute 10-20 g per plant 3-4 times during vegetative cycle.

**Industrial crops(potato, carrot, etc.):**to distribute 3-5 Kgs per hectare 2/3 times during vegetative cycle.

#### Leaf fertilization:

**Vegetables and flowering crops:** ml 80-120 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

**Arboreous crops:** ml 80-120 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

**Vine and peach:** ml 80-120 per 100liters of water (to distribute 800-1.000 liters of solution per hectare).

**Industrial crops(potato, carrot, etc.):**ml 80-120 per 100liters of water (to distribute 800-1.000 liters of solution per hectare).

#### Warning:

- In covered areas (greenhouses, tunnels,)the dose should not exceed 200 g per hl of water. Leaf application should be carried out in the coolest hours of the day.

**Compatibility:** The product can be mixed, in the proper dose, with FERTIPLAN products and antiparasitic in general, except for oil products and having a strong alkaline reaction.

#### WARNING:

*This product is for agricultural use only. Any other use is dangerous.*

*Keep this product locked away out the reach of children and pets. Do not smoke or eat while using the product.*

*While the FERTIPLAN guarantees the quality of the product it assumes no responsibility for damage or partial results due to incorrect application of the product or particulars climatic condition and/or environment, since it cannot directly supervise its use.*

*Avvertenze: in ambiente protetto (serre, tunnels, ecc.) non superare la dose minima ed effettuare i trattamenti vannonelle ore più fresche della giornata. Compatibilità: il prodotto è compatibile con la maggior parte degli antiparassitari ad eccezione degli olii bianchi e di insetticidi a base oleosa.*
