

Zinco attivato

EC FERTILIZER

Zinc sulphate solution.

Composition: Zinc (Zn) water soluble 6%

Components: zinc sulphate , organic acids

CHARACTERISTICS:

Zinc has an important role in several enzymatic processes, and particularly is an important enzymatic activator in the tryptophan synthesis and in auxins translocation.

The organic acids content encourages greater absorption of the product as well as more rapid action.

ZINCO ATTIVATO may be used both by means of fertilizing irrigation and by means of leaf applications.

ZINCO ATTIVATO has a prompt action and a remarkable persistence.

Size Kg 1-5

The product is stable to standard temperature and pressure. To store to temperature between 4°C and 35°C. The product isn't combustible.

Dose and instructions for use

Fertirrigation:

Vegetables and strawberry: to distribute 0.3-0.5 kg per 1.000 sm of soil every 8/10 days.

Apple, pear, cherry and apricot: to distribute 20-40 g per plant in 3-4 times.

Olive, actinidia, vine, peach and citrus: to distribute 20-40 g per plant in 3-4 times.

Industrial crops: to distribute 3-5 kgs per hectare in 3-4 times.

Ornamental and flowering plants: to distribute 0.3-0.5 kg per 1.000 sm of soil every 8/10 days.

Leaf application:

Vegetables and strawberry: g. 100-150 per hl di acqua.

Apple, pear, cherry and apricot: Kgs 2-3 per hectare.

Olive, actinidia, vine, peach and citrus: Kgs 2,5-3,5 per hectare.

Industrial crops: Kgs 2-2.5 per hectare.

Ornamental and flowering plants: g 100-150 per hl of water.

WARNING:

In covered areas the minimum dose should not exceed. Leaf application should be carried out in the coolest hours of day. This product is for agricultural use only. Any other use is dangerous.

Keep this product locked away out the reach of children and pets. Do not smoke or eat while using the product.

The product can be mixed, in the proper dose, with FERTIPLAN products and antiparasitic in general, except for oil products and having a strong acid reaction.

While the FERTIPLAN guarantees the quality of the product it assumes no responsibility for damage or partial results due to incorrect application of the product or particular climatic condition and/or environment, since it cannot directly supervise its use.
