

Fos-KB EC FERTILIZER

Fertilizer solution PK 16.20 with boron(B) obtained to mixture.

COMPOSITION:

Phosphoric anhydride (P₂O₅) water soluble.....16%
Potassium oxide (K₂O) water soluble.....20%
Total boron (B) water soluble.....1%

pH = 8-9,5
Density = 1,37

Size Kg 1 in box containing 15 pieces
Kgs 6 in box containing 4 pieces
Kgs 30 on pallet containing 30 pieces

The product is stable to standard temperature and pressure. To store to temperature between 4°C and 35°C.
The product isn't combustible.

CHARACTERISTICS: FOS-KB is a fluid mineral fertilizer contains high percentage of phosphor, potassium and boron easily assimilable by plants. FOS-KB regular used make several functions:
- it stimulates flowering and flowering fertilization;
- it confers high organoleptic characteristics and high preservable of fruits;
- High contents of phosphor and potassium produce the formation of solid tissues and production of natural defence substances (phytoalexins) making plants more resistant to fungic and bacterial diseases.

Dose and instructions for use.

Fertirrigation:

Vegetables and flowering crops: to distribute 0,5-1 Kg per 1.000 sm of soil.

Arboreous crops: to distribute 10-15 Kgs per hectare 3-4 times during vegetative cycle.

Vine and peach: to distribute 10-15 Kgs per hectare 3-4 times during vegetative cycle.

Industrial crops (potato, carrot, etc.): to distribute 10-15 Kgs per hectare 3-4 times during vegetative cycle.

Leaf fertilization:

Vegetables and flowering crops: ml 150-220 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

Arboreous crops: ml 200-250 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

Vine and peach: ml 200-250 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

Industrial crops (potato, carrot, etc.): ml 200-250 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

Warning:

- In covered areas the dose should not exceed 200 g per hl of water. Leaf application should be carried out in the coolest hours of day.

Compatibility: The product can be mixed, in the proper dose, with FERTIPLAN products and antiparasitic in general, except for oil products and having a strong acid reaction.

WARNING:

This product is for agricultural use only. Any other use is dangerous.

Keep this product locked away out the reach of children and pets. Do not smoke or eat while using the product.

While the FERTIPLAN guarantees the quality of the product it assumes no responsibility for damage or partial results due to incorrect application of the product or particular climatic condition and/or environment, since it cannot directly supervise its use.
