

# KALIFOS

## EC FERTILIZER

Fertilizer solution PK 30.20 obtained to mixture.

### COMPOSIZIONE:

Phosphoric anhydride ( $P_2O_5$ ) water soluble.....30%  
Potassium oxide ( $K_2O$ ) water soluble.....20%

pH = 6,1-6,3  
Density = 1,41

The product is stable to standard temperature and pressure. To store to temperature between 4°C and 35°C.  
The product isn't combustible.

Size Kg 1 in box containing 15 pieces  
Kgs 6 in box containing 4 pieces  
Kgs 30 on pallet containing 30 pieces

### CHARACTERISTICS:

**KALIFOS** is a liquid mineral fertilizer containing an high percentage of phosphor and potassium. Its formulation makes **KALIFOS** quickly available for plants.

**KALIFOS** stimulates production of natural substances of defence (phytoalexine) making plants more resistant to fungins and bacterials disease.

The use of **KALIFOS** is particularly recommended during the stage of flowering and during the stage of the fruits ripening.

## Dose and instructions for use.

### Fertirrigation:

**Vegetables and flowering crops:** to distribute 0,5-1 Kg per 1.000 sm of soil.

**Arboreous crops:** to distribute 10-15 Kgs per hectare 3-4 times during vegetative cycle.

**Vine and peach:** to distribute 10-15 Kgs per hectare 3-4 times during vegetative cycle.

**Industrial crops (potato, carrot, etc.):** to distribute 10-15 Kgs per hectare 3-4 times during vegetative cycle.

### Leaf fertilization:

**Vegetables and flowering crops:** ml 150-220 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

**Arboreous crops:** ml 200-250 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

**Vine and peach:** ml 200-250 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

**Industrial crops (potato, carrot, etc.):** ml 200-250 per 100 liters of water (to distribute 800-1.000 liters of solution per hectare).

### Warning:

- In covered areas (greenhouses, tunnels,) the dose should not exceed 200 g per hl of water. Leaf application should be carried out in the coolest hours of the day.

**Compatibility:** The product can be mixed, in the proper dose, with FERTIPLAN products and antiparasitic in general, except for oil products and having a strong alkaline reaction.

### WARNING:

*This product is for agricultural use only. Any other use is dangerous.*

*Keep this product locked away out the reach of children and pets. Do not smoke or eat while using the product.*

*While the FERTIPLAN guarantees the quality of the product it assumes no responsibility for damage or partial results due to incorrect application of the product or particular climatic condition and/or environment, since it cannot directly supervise its use.*
